NAMIBIA COVID-19 SITUATION REPORT NO. 78			
Outbreak Name	<i>COVID-19 outbreak</i>	Country affected	Namibia
Date & Time of this report	<i>04.06.2020 00:37 hrs</i>	Investigation start date	13 March 2020
Prepared by	<i>Surveillance Team</i>		

### 1. SITUATION UPDATE / HIGHLIGHTS

- No new confirmed case was recorded today (04 June 2020).
- Cumulatively, **25** confirmed cases have been reported in the country,
- Of the **25** confirmed cases, Sixteen **16 (64%)** have recovered.
- Twenty-two **22 (88%)** of the confirmed cases are imported while **3 (12%)** are local transmissions.
- No death has been recorded, case fatality rate is **0%**
- There is no evidence of community transmission in the country at the moment.
- On 28 May 2020, His Excellency, The President of the Republic of Namibia announced a transition of all the regions (with exception of the Walvis Bay Local Authority Area) from stage 2 of lockdown to stage 3 with effect at midnight 01 June 2020 until 29 June 2020.
  - Stage 3 of lockdown covers a period of 28 days/ two incubation periods.
  - Walvis Bay Local Authority Area has reverted to stage 1 of lockdown on 29 May 2020 until midnight, 08 June 2020.

## 2. BACKGROUND

### Description of the cases

- **Index cases:** Two confirmed cases of COVID-19 were reported in Windhoek district on 13 March 2020. The married couple; a 35-year-old male and a 25-year-old female, arrived from Madrid, Spain on 11 March 2020.
- On 31 May 2020, Namibia recorded a case in Khomas Region, bringing the total number of confirmed cases to 25.

## 3. EPIDEMIOLOGY

Since 14 March, 2020 when the COVID-19 outbreak was declared in Namibia, a total of **25** cases have been confirmed. As of today, four (4) Regions have been affected, of which Khomas region recorded the highest number of cases; **13 (52%)**, while Hardap region recorded the least number of cases; **2 (8%)**. The distribution of confirmed cases by region is presented in figure 1 below.

*Figure 1 Distribution of Confirmed COVID-19 cases in Namibia, by region as of 04 June 2020*

As presented in figure 2 below, Namibia recorded its cases of COVID-19 during epidemiological weeks 11, 12, 13, 14, 21, 22 and 23 where most cases (7) were recorded during epidemiological week 13.

*Figure 2: Epi-curve for confirmed COVID-19 cases in Namibia as of 04 June 2020*

Of the 25 confirmed cases, more males; **17 (68%)** are affected compared to their female counterparts; **8 (32%)**. The age and sex distribution of confirmed COVID-19 cases is presented in figure 3 below.

*Figure 3: Age and sex distribution of COVID-19 confirmed cases in Namibia as of 04 June 2020*

**Probable case:** A suspect case for whom testing for COVID-19 is inconclusive. Inconclusive being the result of the test reported by the laboratory

**Confirmed case:** A person with laboratory confirmation of COVID-19 infection, irrespective of clinical signs and symptoms

- **Active surveillance working case definition as of 20 April 2020**

A patient diagnosed with Upper/Lower Respiratory Infection (Mild or Severe) presenting any of the following signs and symptoms: cough, sore throat, fever, chills, myalgia/body pains or shortness of breath in the past 7 days.

- **Surveillance activities**

- Call centre continue operations for 24 hours every day; **775** calls answered at the hotline today (04.06.2020) and **24** alerts and rumours investigated.
- Data entry is ongoing, realtime data dashboard launched on 01 June 2020. The Dashboard is accessible via a link on the MoHSS's website <http://www.mhss.gov.na/> or at <https://cutt.ly/Covid-19-situation-Namibia>
- Active case search in all regions is ongoing.
- Contact tracing and monitoring is ongoing (**see Table 1**).
- People under mandatory quarantine are being monitored daily (**see Table 2**) and are being tested on day 12 before release on day 15 if they test negative.

### **Contact tracing Summary**

As of 04 June 2020, for the 25 confirmed cases, a total number of **455** contacts have been identified. Two hundred and ninety-seven (**297**) contacts have completed their 14 days of follow up and **146** are still active and being monitored daily for 14 days (**Table 1**).

*Table 1: National contacts tracing summary for COVID-19 as of 04 June 2020*

Variables	High	Medium	Low	Total
Total Number of contacts listed for follow up (potential)	138	93	268	499
Total Number of contacts identified (cumulative)	137	93	225	455
Total number of Contacts never reached	1	0	43	44
© Total Number of contacts lost to follow up	0	2	5	7
Total Number of contacts that developed signs & symptoms	25	9	9	43
Total Number of contacts that tested positive (became cases)	4	1	0	5
Number of active contacts monitored/followed in the last 24hrs	46	31	69	146
Total number of Contacts completed 14-days follow up	87	61	149	297

© Seven contacts are lost to follow up, all are non-Namibians and have travelled back to their countries of origin.

As of 04 June 2020, a total of **2454** persons who came into the country have been put into supervised quarantine facilities around the country. Of the 2454, **1652** have been discharged and **802** are currently quarantined (**Table 2**)

*Table 2: Number of people in mandatory quarantine facilities as of 04 June 2020*

Region	Newly quarantined 24hrs	Cumulative number of people	Number of people discharged	Number of people in quarantine now
Kunene	0	53	51	2
Omaheke	7	70	56	14
*Kavango	2	58	44	14
Omusati	1	90	80	10
Oshana	0	20	9	11
Ohangwena	10	175	135	40
Hardap	1	138	117	21
Otjozondjupa	0	323	267	56
Khomas	131	761	347	414
Zambezi	3	317	277	40
//Karas	0	280	189	91

<b>Total</b>	<b>150</b>	<b>67</b>	<b>29</b>	<b>0</b>	<b>15</b>	<b>0</b>	<b>261</b>

#### LABORATORY INVESTIGATIONS

- As of 04 June 2020, a total of **4385** (including **231 re-tests**) COVID-19 specimens have been tested in the two laboratories (NIP and Path Care) as per table 5 below:

*Table 5: COVID-19 specimens recorded at NIP and Path care Laboratories as of 04 June 2020*

Variables	Laboratory			Total
	NIP	Path care	South Africa	
Total sample received by the Laboratory	3396	1073	-	4469
<b>Total sample tested</b>	<b>3115</b>	<b>1041</b>	-	<b>4156</b>
Total sample re-tested	207	24	-	231
Total results positive	18	6	*1	25
Total results negative	3097	1035	-	4132
Total sample discarded	59	8	-	67
Total sample missing	0	0	-	0
Total results pending	15	0	-	15
Total results inconclusive/indeterminate	0	0	-	0
Total new suspected cases in last 24 hours	177	0	-	177

*\*1 Patient specimen collected and tested in South Africa, he travelled back before results came out*

## **COUNTRY COORDINATION, PLANNING AND MONITORING**

- Continues to attend the IM Briefing Meetings and agreed to hold regular meetings with the IM. The team proposed that:
  - The National level to consider urgent deployment of an integrated team of technical experts to the following priority border regions (Erongo, Karas, Hardap, Zambezi, Omaheke, Kavango, Ohangwena, Omusati and Kunene).

## **CASE MANAGEMENT:**

- Out of the 25 cumulative confirmed cases, 16 have recovered after testing negative twice for COVID-19 at 48 hours' interval.
- Of the 9 active cases, 1 is still in ICU but in a stable condition and the other 8 are asymptomatic.

## **INFECTION PREVENTION AND CONTROL:**

- IPC activities are on going:
  - Distribution of PPE according to the Regional plans
  - Monitoring of IPC in health facilities
- Guidelines for IPC in the workplace in the context of COVID-19 has been finalized.

## **LOGISTICS.**

- A 12 bed capacity ICU AT Windhoek Central Hospital inaugurated by His Excellency, The President on 03 June 2020.
- Facilitation of the allocation of quarantine facilities in the country and transportation for discharged people from quarantine facilities is ongoing.
- Distribution of PPEs to the regions

## **POINTS OF ENTRY:**

- Screening and inspection of incoming travellers and trucks at points of entry and check points is ongoing.

- SOP for management and monitoring of cross border road transport at designated Points of Entry and COVID-19 checkpoints finalised.

#### **RISK COMMUNICATION AND COMMUNITY ENGAGEMENT:**

- The COVID-19 Communication Center continues to update the public on the status of the outbreak, the impact on different sectors and address rumours around COVID-19.
- Flyers on COVID-19 facts have been translated into 8 local languages, and a total of 110 000 copies have been printed and they are being distributed to schools.

#### **PSYCHOSOCIAL SUPPORT SERVICES:**

- Continuous provision of health education, psychosocial support services, as well as food to people in need of shelter.
- Conducted effective parenting, suicide prevention and tobacco use prevention at both centres.

#### **5. CHALLENGES:**

- Inadequate isolation units at health facilities in the regions.
- Insufficient PPE and swabs for sample collection from suspected cases identified through active case search in some districts.
- Inadequate nasopharyngeal swabs and appropriate transport media.

#### **6. RECOMMENDATIONS AND WAY FORWARD:**

- Establish fully equipped isolation units at health facilities in the regions.
- Logistics pillar to continue with the procurement and distribution of sufficient PPE to the regions to ensure that response is not interrupted.
- NIP to continue sourcing for swabs and appropriate transport media for all districts.

**Approved:**

**Incident Manager**

**Date: 04 June 2020**
